PrestaShop,
From ideas to success

prestashop.com
Launched as an open source solution in 2007, PrestaShop is Europe’s leading e-commerce platform. It is available to all and allows any entrepreneur, novice or expert, to create their online store.

It now has millions of users (developer community, partner agencies, ambassadors, etc) with over 300,000 online stores in over 190 countries worldwide.

“PrestaShop has been our e-commerce partner from the start. Why? Because it fits our needs - a simple and powerful solution - respecting our values, as a «Made in France» company”

Dimitri Cazenave, Digital Manager
3 GOOD REASONS
for choosing PrestaShop

FREEDOM
Open Source
Supported by contributions and the common sharing of knowledge, along with rich and innovative open source technologies, the PrestaShop software is in constant development.

ACCESSIBILITY
User Friendly
A genuine operational asset, PrestaShop software can be used by everyone: from novices to e-commerce experts, the ergonomic and functional interface means you can handle the interface in a fast and easy-to-use way.

PRESENCE
Community
The PrestaShop community is passionate about e-commerce, coding and open source, built on mutual assistance, making it one of the largest active communities in the world.
PRESTASHOP 1.7

The platform offers you the freedom to shape and implement your e-commerce to meet your ambitions.

OPENNESS

Choose an open solution

The software’s source code is publicly accessible. This openness encourages cooperation and continuous contribution from a community of experts who are passionate about each new version.

FLEXIBILITY

Create a website with unique style

Freely shape your store and its appearance with help from a large range of themes and modules available from the PrestaShop marketplace.

STABILITY

A powerful and reliable platform

You can put your trust in software that is subject to constant verification and security updates providing you with quality code. It is also a platform capable of supporting thousands of products simultaneously and handling large traffic spikes (private sales, blog, B2B, multi-store, etc.).
As your activity expands, **your store adapts**

PrestaShop's software has been designed to adapt to your growth. It allows activation or addition of useful functionalities at each stage of your evolution: internationalization, optimized SEO for large catalogs, ERP integration and third-party applications (Help desk, PIM, stock, etc.).

**PRODUCTIVITY**

Focus on **your activity**

Automating the most laborious tasks in your business is key. Dedicated to e-commerce, PrestaShop 1.7 has many functional tools to enhance your business performance.

“EcomiZ has been using PrestaShop for 10 years and we have deployed it on more than 450 projects to make e-sellers happy! The new 1.7 version improves on code quality, features and performance.”

BENEFIT FROM A PERSONALIZED SUPPORT

Support is crucial when you are creating or migrating an e-commerce store.

PrestaShop has selected and **certified agencies** specialized in the creation of e-commerce stores, the creation of customized modules or experts in web marketing.
Having worked for the most prestigious French companies (Yves Saint Laurent Beauté, Guerlain, etc) Daan Sins and Sébastien Guerra founded Huygens, a brand of natural and organic cosmetics in 2013.

“Since April 2019, we have been using version 1.7 of PrestaShop as part of a complete overhaul of the site and our e-shop. We currently have nearly 350 products, all available from our online store on www.huygens.fr.

The brand is developing tremendously in Asia and is also planning to expand its digital distribution channels, notably through the launch of a selection of bestseller products on marketplaces such as Amazon.

“Clean formulas, efficiency and sensory appeal... Huygens presents the new Organic generation”
Daan Sins, co-founder of HUYGENS

PrestaShop offers our customers many features to improve their user experience on the website, thanks to a wide choice of modules that are easy to install and configure. These also facilitate the implementation of CRM or promotional actions in a rather spontaneous way.

The «mobile friendly» aspect of version 1.7 is a real «game changer». It was essential for us to allow our customers to visit our e-shop from anywhere. PrestaShop is a reliable software solution that has allowed us to constantly develop our website over 6 years, retaining autonomy through an intuitive back-office.”
